PHOTO CONSENT FORM

Dear Parents

From time to time students have the opportunity to be photographed as part of our school activities or programs, promotions and for inclusion on our school website.

However, before these images can be displayed or used, parental permission must be granted. Any students displayed on our website will not be identified by any given name or personal details.

A register of families who have granted permission for their child/ren’s pictures to be used will be maintained at school for the duration of your child/ren’s enrolment. If circumstances change, please notify the school office at your earliest convenience.

W. Whitworth
Principal

I grant permission for images of my child/ren to be used on the school website, in publications and displays.
